sposób w jaki fromm pisze o miłości jest po prostu piękny, nie jestem w stanie tego nazwać inaczej. warto też zwrócić uwagę na jego teorię na temat różności między płciami, która, choć nie zgadzam się z nią w 100%, jest moim zdaniem bardzo wartościowa. również świetna analiza biblijnej opowieści o stworzeniu świata jako manifestu kultury patriarchalnej. nie wszystkie rozdziały są tak samo zajmujące, ale i tak jest to pozycja godna polecenia.

I especially liked the final part about love and how important is to love oneself.

I really enjoyed how precise are Fromm insights, at the same time being free of any unnecessary judgement.

The parts about matriarchal structures and sex were also very interesting. They allowed me to realize some unhealthy social mechanisms within myself. I am extremely grateful for that :)

Erich Fromm has some incredible insights in to love and relationships. His theories are much easier to comprehend on a theoretical abstract level than to apply them to real life situations where human emotions are heightened. But interesting, nonetheless.

Si vamos a hablar de psicólogos, no caben dudas que uno de los mejores es Erich Fromm. No usa los conceptos retorcidos de Freud, ni de Lacan. Otro excelente es Carl Jung, pionero en descubrir enfermedades como la histeria y su cura, a veces con métodos no tan normales (si, usaba la electricidad - ver "Un Método Peligroso").

" Happiness is not the most important thing in life, aliveness is. Suffering is not the worst thing in life, indifference is. (...) If we suffer, we may try to stop the causes of suffering. If we feel nothing, we are paralysed. Thus far in human history suffering has been the midwife of change. Should for the first time indifference destroy man's capacity to change his fate? "

Podobała mi się, ale...
Zastanawia mnie dobór artykułów składających się na jej całość. Osobno są świetne, ale połączone wywołują lekką irytację. Podział na części nie pomaga, a nawet uwydatnia niedopasowanie.
Nie wszystko trzeba ze sobą łączyć!

Brilliant! Continually perplexed at the books that we are force fed while the truth hides lurking In University stacks unnoticed! Wow!
